Tuesday Evening Richard Neville Aldsworth, Esq; Secre-

A Letter has been sent to the Lord Mayor from Lord Egrecont, Secretary of State, with the News that the Treaty

su figned.
The Gentlemen Lieutenants of the Royal Navy have propied to the Lords of the Admiralty, that to provide for near so,coa Seamen, who will now be difcharged, all the King's Frightes, armed Ships, &c. which can be properly converted to this Service, be employed, to the Number of 250 Sail, making 125,000 Tons of Shipping, manned with 17,500 Seamen, and 1500 Non-commissioned Officers, paid by the Government as at present, and under the same Regulations, indentitled to the same Privileges in the Whale-Fishery at

itenland and Davis's Straits.

From an Estimate of the Galos made by the Dutch in this Prom an Estimate of the Claims made by the Datch in this Enter, it appears, that after all Charges, including Wear and Tage of the Ships employed, there would be a Profit of 200,0001, yearly, besides establishing a Nursery for Seamen. Employing Seamen in the Government's Pay in this Branch, rould be less injurious to the Merchanta than employing them any other, because Ships in the Greenland Fishery are oliged to carry three Times the Number of Hands required monthing Vessels of equal Burthen; and never more than

300 have been employed in it in any one Season.
